To All Monroe Rifle and Pistol Club Members:

The Club is purchasing an Air Management System for the indoor range.

This is a very costly project that will greatly improve air quality associated with indoor shooting activities. We are asking our members for donations to help with the building modifications to offset installation costs. Any amount will be appreciated. If enough donations come in, no financing will be necessary.

Contact the Club Secretary/Treasurer (Steve Jones: 734-755-3854) or mail a check to the Club at the address above to donate.

As a reminder: Our 2026 Site-in day and Swap Meet is occurring this coming Saturday and Sunday, October 24-25, 2026. Come on out and take a look what some of the vendors may have available. We will also have a donation station available for the Air Management System project if you would like to make a donation at that time.

Thank You Very Much and come on out and enjoy your club.

Respectfully,

Bret A. Solomon, President, Monroe Rifle & Pistol Club
and the Monroe Rifle & Pistol Club Board of Directors
